

## - Information

www.telecomtender.com

Product.

Coaxial Clamp 6Way RG213

Prod No.

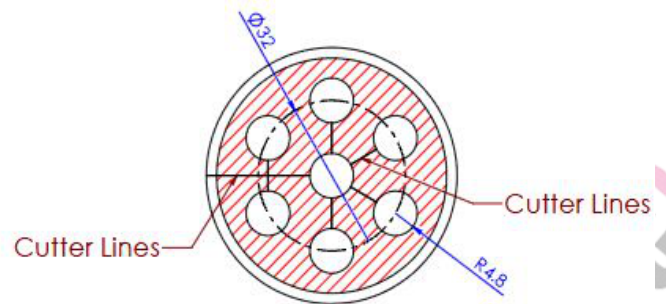

FC-CI-RA

Application and Properties:

To setup on telecommunication ladders and towers that fixing RG213 cable (by converter) without any damage.

## - Other Details

- Corrosion and UV resistant
- Capability of keeping different radio cables with different rubber converters
- Capability of feeder installation in any direction by rotary type of clamp
- Easy and fast installation

## - Technical Specification

### Physical specification

Cable size	RG213
Cable runs	Six way
Material	
Rubber Material	EPDM
Metal material	Stainless steel 304 construction
Plastic material	PC reinforced with glass fiber
Resistance to corrosion	Hight
Resistance to humidity	100%
